RELEVANT EXPERIENCE

Software Developer (Consultant) · **Rapid App Werks** Feb 2025 — Present

- Building and maintaining enterprise low-code applications on the Mendix platform for clients including Terumo and Johnson & Johnson
- Designing domain models, microflows, and nanoflows for data processing and business logic
- Integrated external services and APIs with Mendix applications; collaborated on enterprise projects

Software Developer (Consultant) · **MacGyver Consulting** Mar 2024 — Dec 2024

- Full-stack development using React, Node.js, WordPress, and Laravel
- Managed and synchronized data across multiple databases; integrated BreadStack services into e-commerce platforms
- Implemented designs from Figma mockups and optimized projects for mobile responsiveness

Software Developer · **Netfone VOIP Services (NZ)** Nov 2023 — Mar 2024

- Backend development using Laravel 8-10, GraphQL, Docker, and AWS
- Managed data across multiple databases; part of VOIP integration, CRM, and fuel system digitalization
- Worked with unit testing to secure endpoints and functionality

Web Developer · **Emirates Intl Endurance Village** Feb 2022 — Nov 2023

- Developed dynamic registration system for endurance horse ride events; integrated with third-party APIs
- Used MERN stack and later migrated to PHP (Laravel); created user-friendly site listing Arabian horses
- Developed internal tools and APIs; built a cross-platform mobile application

Senior Software Developer · **Decenternet** Jan 2020 — Jan 2022

- Led backend development with Node.js, Express, and NoSQL database
- Contributed to frontend with React.js; designed and exposed APIs for third-party applications
- Integrated Coin Market API for real-time cryptocurrency data

Software Developer · **StarkDev / BlueRock Digital** Dec 2020 — Jan 2022

- Integrated CRM tools (HubSpot) for user information and shipping details
- Created middleware for seamless integration between Shopify and HubSpot

Senior Software Engineer · **Stratpoint** Oct 2019 — Nov 2020

- Built customized CMS for ABS-CBN, the top TV network in the Philippines
- Engineered bespoke CRM for Globe Telecom; backend with Node.js, Express, React, MySQL, AWS

Full Stack Developer · **Sterling Technologies (Openovate Labs)** Oct 2017 — Oct 2019

- Spearheaded e-commerce, job hunting, and cashback sites (Dealcha, Buzzbee) in Thailand
- Web backend with OOP, PHP, Node.js, React, React Native, MySQL, AWS S3

SKILLS

Programming Languages

JavaScript (ES2015+), TypeScript, PHP, HTML, CSS, GraphQL

Libraries & Frameworks

React, Next.js, Node.js, Express, Laravel, NestJS, React Native, Tailwind CSS, Framer Motion, Flutter

Tools & Platforms

Git, GitHub, Docker, AWS (S3, RDS, Lambda, Cognito, CloudWatch), Supabase, Firebase, MySQL, MongoDB, Figma, Vercel, WordPress

SELECTED PROJECTS

Singapore Airlines

Enterprise-level airline website delivering seamless booking and travel experience for millions of users

EmergenSync (Android / WIP)

Life360 clone made with React Native and Firebase

EIEV Event System

End-to-end event management with web, mobile, and on-site kiosk integration for equestrian events in the UAE

Doshmate

Personal finance tracker built with Next.js, React Native and Supabase, live at doshmate.leedalmogbel.com

EDUCATION

Pamantasan ng Cabuyao

BS in Computer Science
2009 — 2013
